REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: claims 10, 11, 13-18, 20-24, 26-38 and 40-45 are allowable because the prior art fails to teach or suggest the dual-gated MOSFET having a threshold voltage ranging from about 0.3V to about 0.34V or fails to teach the latch circuit is able to output a full output sense voltage in less than 10 nanoseconds. The rejection under 35 USC 103(a) in previous office action was good. However, it is unsure that the modified circuit would work for its intended purpose.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
